EDUCATION

Hanoi University of Science and Technology
Bachelor of Engineering Automotive Engineering

Hanoi
Sep 2015 - Jun 2020

EXPERIENCE

ZP (Sing)
Software Engineer

FPT Software
Mar 2023 - Present

- Build code base, core features for 2 pages using Nextjs
- Participating in discussions and decisions related to project orientation, architectural choices, and finding solutions to technical challenges
- Suggest UX and technical optimization and implement it
- Review code for other members to ensure it adheres to coding standards, follows best practices
- Configuring environments and fix bugs on production and ensuring smooth deployment of the projects
- Write document for simple to complex features/ technical decision
- Build common, reusable components
- Contribute to sprint planning, estimation, and timely delivery of project milestones. Collaborate to meet project deadlines and maintain high-quality deliverables

Cerebral (US)
Software Engineer

FPT Software
Oct 2021 - Mar 2023

- Optimized the front-end code for performance and responsiveness, even on slow or unreliable networks
- Tested and debugged front-end code using tools such as Jest, and React Testing Library, to ensure that it met all functional and non-functional requirements.
- Actively participating in meetings and engaging in direct communication with clients through teleconferencing
- Collaborated with product managers to prioritize and plan front-end development efforts, and participated in Agile ceremonies such as sprint planning, daily standups, and retrospectives
- Collaborating with QA engineers to identify and resolve software defects and issues
- Engaging in code reviews and furnishing constructive feedback to fellow developers to elevate the overall code quality
- Offering technical mentorship and guidance to junior developers within the team.

MetaHall
Software Engineer

FPT Software
Nov 2020 - Oct 2021

- Working with team on design and development of mobile app, landing page from Abode design
- Build common, reusable components and frontend libraries
- Build user-friendly interfaces and ensure its responsiveness to work with all devices and resolutions
- Participating in the development of complex web applications and UI component using React, Typescript and other FE technologies

Personal Finance Management
Software Engineer

FPT Software
May 2020 - Nov 2020

- Building landing pages using NextJs, Tailwind
- Building and maintaining transaction flow, visualize data on chart base on Figma design
- Translate design concepts into functional and engaging user interfaces. Ensure a seamless and intuitive user experience by implementing smooth transitions, animations, and responsive layouts
- Integrated front-end code with back-end APIs and services, using RESTful APIs

SKILLS

Programming Languages:	Javascript/Typescript, HTML5, CSS3
Frameworks/Library:	ReactJs, Nextjs, TailwindCss, Apollo GraphQL, Jest, RTL, Redux, ReactI18
Cloud Services:	AWS, Azure
Containerization:	Docker
Programming Tools:	VSCode, Vim

CERTIFICATE

AWS Certified Solutions Architect – Associate (AWS SA C03)	AWS Mar 2023
AZURE AZ-900	Microsoft April 2022
Professional Scrum Master I (PSM I)	Scrum.org Mar 2023
TOEIC (945)	IIG Dec 2021
